Thiruvananthapuram, India

Summary

Aspiring Computer Science Engineer with a focus on Artificial Intelligence and software development. Skilled in web technologies, object-oriented programming, and IoT interfacing. Passionate about building real-world solutions with creative and efficient approaches.

Skills

- Fundamentals:** Machine Learning, Deep Learning, Generative AI (LLMs & RAG), SQL, Data Structures, OOP Concepts, Excel
- Languages:** C, Java, Python | **Web/App:** Streamlit, Flask, HTML/CSS, JavaScript (React), Flutter
- Databases:** MySQL, MongoDB
- Other:** IoT Interfacing, GUI Development, 2D Animation | **Soft Skills:** Teamwork, Problem-Solving, Adaptability

EXPERIENCE

Junior Data Analyst Intern — Star City Auto Spare Parts Trading L.L.C (Dubai, UAE) Aug 2026 – 1 month

- Built a Automotive Quotation Optimization Engine & In-House AI Copilot (Athena AI)
Tech Stack: Python, Streamlit, Pandas, NumPy, ReportLab, Web Speech API (TTS), CSS3 Glassmorphism
- Support business analytics and Excel-based reporting for the company's operations across its Dubai and Indian offices.
- Gained working exposure to SAP-based order flow and supplier portals as part of operational analytics.

Projects

ZenGuard — Real-time AI Stress Detection & Management System | Published at ICSAIC-2026 (NICHE) • Selected for MBCET 2026 Tech Exhibition

Stack: Arduino, Python, Random Forest, Flutter, Firebase, IoT, Gemini API — Wearable system monitoring heart rate, EDA, temperature & motion for real-time stress prediction via ML, visualized on a Flutter app with AI chatbot support.

FootLink — Football Transfer Market System

Stack: Python, Flask, Random Forest, Scikit-learn, Pandas, HTML/CSS — Full-stack ML web platform recommending optimal football transfers for data-driven club decisions.

Autonomous Wildlife Sanctuary Tour Guide Vehicle

Stack: YOLOv8, Python, OpenCV, Raspberry Pi, IoT, TTS — Semi-autonomous robotic vehicle that identifies animals in real time and delivers voice-assisted information to visitors.

Genei — Autonomous AI Voice Assistant & Cognitive Reasoning Engine

Stack: Python, Streamlit, DeepSeek-R1 (OpenRouter), Google Gemini API, PyPDF, Edge Neural TTS, Windows APIs — Engineered an executive AI assistant featuring DeepSeek-R1 / Gemini cognitive reasoning, a ChatGPT-style multi-session conversational memory hub with dynamic auto-titling, an automated Document Tutor for multi-page PDF ingestion & grounded Q&A masterclasses, zero-latency studio neural voice synthesis, and native Windows desktop automation (Spotify media deck, system launchers, scheduled Action Center alerts).

Education

B.Tech — CSE (Artificial Intelligence) 2022 – 2026

Mar Baselios College of Engineering and Technology (Autonomous), Thiruvananthapuram | CGPA: 6.58

12th Standard (CBSE) 2022 | 10th Standard (CBSE) 2020 12th CGPA: 7.12 | 10th CGPA: 8.08

Dr GR Public School, Neyyattinkara

Additional Information

- Languages Known:** Malayalam, Hindi, English
- Interests & Hobbies:** Pencil Sketching, Singing, Gaming, Cooking, Researching
